

READY TO EXPAND YOUR HEALTH VENTURE INTO THE UNITED STATES?

Join the **NL USA Health Accelerator** and gain direct access to the U.S. healthcare ecosystem

Applications are open from **June 15th until August 28th**

The NL USA Health Accelerator program starts at the beginning of **October 2026**

Erasmus MC & Cedars-Sinai Accelerator+ offer a six-week acceleration program for the most promising NL startups in the **HealthTech, MedTech & Biotech** sectors, culminating in one week at Cedars-Sinai (the week before HLTH USA)

Open to Dutch startups and scale-ups that:

- Have moved beyond the concept stage
- Have a functional prototype, MVP, or validated proof of concept
- Have ambitions to expand into the U.S. market

Focus areas

Precision Medicine

Cell & Gene
Therapy

Biotech

Value-Based

in collaboration with

LEADING HEALTHCARE PARTNERS

Cedars-Sinai is internationally recognized for excellence in healthcare, research, and innovation, and has extensive experience partnering with and investing in emerging healthcare companies. Its commitment to the Dutch innovation ecosystem is reflected in the establishment of Coronet Ventures NL, a dedicated investment initiative supporting high-potential Dutch healthcare startups.

Erasmus MC is a leading European university medical center dedicated to delivering excellent patient care, cutting-edge research, and education, with strong international collaborations. It is also building an open, urban Health Tech ecosystem in Rotterdam that unites healthcare providers, researchers, industry partners, and startups to accelerate innovation and deliver sustainable, future-proof healthcare.
